Buying a "known quantity" is much better than purchasing an "unknown quantity" claiming quality.

In the Chevrolet you get quality plus the known quantity. You purchase a certainty—"The Product of Experience."

This model has often been described as the "happy medium" in automobile purchases. It meets every demand for a reliable, dependable, economical car.

## **Fayette Warehouse Anno**

In order to better take care of its customers the Fayette Tobacco Warehouse Company, of Lexington, has purchased the warehouse at No. 555 Broadway, known as the Broadway Tobacco Warehouse. Contracts have been let to enlarge the lights and improve the facilities that they may meet the requirements of the

We have enagaged as sales manager of this property which will be known as the Fayette Tobacco Warehouse Company No. 2, Mr. J. D. Noel, one of the best judges of tobacco in Kentucky and widely and favorably known to the entire tobacco trade of the State.

The Fayette Tobacco Warehouse Company has endeavored since its organization, nine years ago, to furnish the tobacco planters of Kentucky as reliable and high class service as could be had. Our constantly increasing trade has borne testimony to the success of our efforts.

For this coming season with the same employes and under the same management we shall be better prepared to take care of our customers without delay.

All the reports we have received from the Southern and Easter markets indicate the highest burley mar-

Mr. Early Bass, our Auctioneer, who is now selling at Greenville, N. C., reports tobacco selling at from five to seven cents a pound higher that last season. This proportionate increase will give us a very high

Because of the splendid patronage we have enjoyed in the past and because we desire to do "our bit," we shall divide one half the commission received from to bacco sold on our opening sale about December 1st, between the Soldiers' Tobacco Fund and the Local Chapter of the Red Cross.

#### AN INCREASE OF PENSIONS.

Congressman Harvey Helm hands us the following which will be good news to those who are in line for an increase of pensions under the act mentioned: Congress on October 6, 1917, adopted an amendment to the pension law increasing the rate of pension for a widow of an officer or enlisted man of the army, navy, or marine corps of the United States who served in the Civil War, the war with Spain, or the Philippine Insurrection, at \$25 per month. This does not include widows of men in the regular army, navy, or marine corps who did not serve in said wars; it does not include the widows of the war of 1812, the war with Mexico, the Indian wars, or army nurses, because they are not named in the amendment. Applications are not required from those entitled. Prompt action will be taken in the Pension office to make payment of the increased amount.-Stanford Journal.

#### WHO KNOWS THESE DATES?

In renewing for his paper for another year, this paper's good friend. J. E. Taylor, of Brookfield, Mo., wrote as follows: "I would feel lost without the Climax as there is so much news in it that brings my memory back to boyhood days of the seventies. If you can give space, I would appreciate the exact year and month that the old Kentucky Central Railroad was graded from Ford to Richmond and when the steel was laid to Richmond." We would be glad if any of our readers who have this information, would furnish it for publication.

#### HAZARD NEEDS A P. M.

The reason that a civil service examination at Hazard will be held here November 14, is that Rebel Martin appointed by the government arrives sition, was called in the draft and declined to claim exemption. Since his departure for Camp Taylor, three men have held the postmastership, none of whom cared to accept the place permanently. As a consequence, Hazard with a total of approximately 10,000 mail patrons, faces the prospect of a closed postoffice unless an inspector appoitned by the government arrives to take up the work.

Quite a number of people were interested in a demonstration of a New Ash Sifter, by Douglas & Simmons last week. This device enables one to save quite a large amount of good fuel that has heretofore been wasted. and since the coal outlook is unpromising, it affords one a means of conserving fuel that is hard to beat.
